

MAJOR ACCIDENT PREVENTION POLICY

Mindful of its obligations and concerns regarding safety and the environment, the Board of BONDALTI CHEMICALS, S.A. set out its Major Accident Prevention Policy for the industrial plant of Estarreja and Aveiro Storage Park Facilities. This policy is in line with the QAS Policy and was explained in the following text.

Committed to undertaking all the actions necessary to implement this policy, BONDALTI CHEMICALS, S.A. developed, implemented and shall maintain at the aforementioned establishments, supported by the Integrated Management System (IMS), a Safety Management System for the Prevention of Major Accidents (SMSPMA), which:

1. Describes the functions and responsibilities of the people involved in safety management at the different levels of the organisation, as well as other workers, including subcontractors.
2. Identifies, assesses and manages the risks inherent in the activities in order to prevent major accidents from occurring.
3. Develops and implements operating procedures in order to achieve high levels of operational performance.
4. Defines goals and objectives by control high risks of major-accidents, safety and environmental activities, monitoring the extent to which they are met.
5. Ensures that modifications are made based on a structured method, minimising the risks associated with this process.
6. Establishes the emergency response to situations that endanger the premises, workers and neighbouring populations, in order to reduce their impact.
7. Develops training and coaching as a means of raising awareness and promoting better performance on control of risks of major-accidents.
8. Carries out systematic inspections to ascertain the extent of implementation of the Safety Management System for the Prevention of Major Accidents.
9. Plans an evaluation of the Safety Management System for the Prevention of Major Accidents.

Accordingly, the Board of BONDALTI CHEMICALS, S.A. undertakes to provide adequate resources (humans, technological and financial) and structures to improve continuously the Management System for the Prevention of Major Accidents according to the current legislation in this area and to the principles of Responsible Care.

Estarreja, 13rd September 2019

João Fugas
Managing Director
